

Surgeries

Subject ID _____

Form O: GI Surgical Treatments History

Date Surgery A _____

Type of Surgery A

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Strictureplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery B _____

Type of Surgery B

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Strictureplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery C _____

Type of Surgery C

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Stricturoplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery D

Type of Surgery D

-
- ☐ Small intestine resection (jejunum)
 - ☐ Small intestine resection (ileum)
 - ☐ Resection of the ileum with cecum, with or without resection of ascending colon
 - ☐ Segmental colonic resection
 - ☐ Stricturoplasty
 - ☐ Diverted ileostomy or colostomy creation
 - ☐ Diverted ileostomy or colostomy closure
 - ☐ Perianal surgery (abscess drainage)
 - ☐ Perianal surgery (seton placement)
 - ☐ Abscess drainage (non-perianal)
 - ☐ Appendectomy
 - ☐ Colectomy with ileostomy (Step 1)
 - ☐ J-pouch surgery in a patient with ileostomy (Step 2)
 - ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
 - ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery E

Type of Surgery E

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Stricturoplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery F

Type of Surgery F

-
- ☐ Small intestine resection (jejunum)
 - ☐ Small intestine resection (ileum)
 - ☐ Resection of the ileum with cecum, with or without resection of ascending colon
 - ☐ Segmental colonic resection
 - ☐ Stricturoplasty
 - ☐ Diverted ileostomy or colostomy creation
 - ☐ Diverted ileostomy or colostomy closure
 - ☐ Perianal surgery (abscess drainage)
 - ☐ Perianal surgery (seton placement)
 - ☐ Abscess drainage (non-perianal)
 - ☐ Appendectomy
 - ☐ Colectomy with ileostomy (Step 1)
 - ☐ J-pouch surgery in a patient with ileostomy (Step 2)
 - ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
 - ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery G

Type of Surgery G

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Stricturoplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery H

Type of Surgery H

-
- ☐ Small intestine resection (jejunum)
 - ☐ Small intestine resection (ileum)
 - ☐ Resection of the ileum with cecum, with or without resection of ascending colon
 - ☐ Segmental colonic resection
 - ☐ Stricturoplasty
 - ☐ Diverted ileostomy or colostomy creation
 - ☐ Diverted ileostomy or colostomy closure
 - ☐ Perianal surgery (abscess drainage)
 - ☐ Perianal surgery (seton placement)
 - ☐ Abscess drainage (non-perianal)
 - ☐ Appendectomy
 - ☐ Colectomy with ileostomy (Step 1)
 - ☐ J-pouch surgery in a patient with ileostomy (Step 2)
 - ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
 - ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery I

Type of Surgery I

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Stricturoplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery J

Type of Surgery J

-
- ☐ Small intestine resection (jejunum)
 - ☐ Small intestine resection (ileum)
 - ☐ Resection of the ileum with cecum, with or without resection of ascending colon
 - ☐ Segmental colonic resection
 - ☐ Stricturoplasty
 - ☐ Diverted ileostomy or colostomy creation
 - ☐ Diverted ileostomy or colostomy closure
 - ☐ Perianal surgery (abscess drainage)
 - ☐ Perianal surgery (seton placement)
 - ☐ Abscess drainage (non-perianal)
 - ☐ Appendectomy
 - ☐ Colectomy with ileostomy (Step 1)
 - ☐ J-pouch surgery in a patient with ileostomy (Step 2)
 - ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
 - ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery K

Type of Surgery K

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Strictureplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)

Date Surgery L

(If there is another surgery, please contact an IBD Center RedCap Admin)

Type of Surgery L

- ☐ Small intestine resection (jejunum)
- ☐ Small intestine resection (ileum)
- ☐ Resection of the ileum with cecum, with or without resection of ascending colon
- ☐ Segmental colonic resection
- ☐ Strictureplasty
- ☐ Diverted ileostomy or colostomy creation
- ☐ Diverted ileostomy or colostomy closure
- ☐ Perianal surgery (abscess drainage)
- ☐ Perianal surgery (seton placement)
- ☐ Abscess drainage (non-perianal)
- ☐ Appendectomy
- ☐ Colectomy with ileostomy (Step 1)
- ☐ J-pouch surgery in a patient with ileostomy (Step 2)
- ☐ Colectomy with ileal pouch anal anastomosis (Step 1 and 2)
- ☐ Ileostomy closure in patient with J-pouch (Step 3)
(If a patient has a 2- or 3-step colectomy, note all two or three surgeries as separate dates.)
